HAMINA LNG OY – TERMINAL CAPACITY ALLOCATION REQUEST FORM FOR SERVICE YEAR 2027

Hamina LNG Oy (hereinafter: the "Operator") owns and operates an LNG terminal at the port of HaminaKotka in Hamina, Finland (the "Terminal"). The Operator has published on Terminal Website an invitation to apply for Service Capacities at the Terminal in the Annual Capacity Allocation Procedure for the Service Year 2027 (01.01.2027 – 31.12.2027).

During the Annual Capacity Allocation Procedure for the Service Year 2027, the Operator allocates available capacities for the Storage Service and the Regasification Services for the period 01.01.2027 – 31.12.2027 in accordance with the procedures described in the Terminal Rules. In order to be considered in the Annual Capacity Allocation Procedure, the Applicant shall submit a filled and signed Terminal Capacity Allocation Request Form together with the documentation required in the Terminal Rules for an Application.

Within the Annual Capacity Allocation Procedure for the Service Year 2027, the Applicants may also apply capacities for the Storage Service and the Regasification Services for the Service Years 2028 – 2030. The capacities for the Service Years 2028 – 2030 are allocated for the willing Applicants for the requested Service Years if and to the extent the Annual Capacity Allocation Procedure for the Service Year 2027 results in a Binding Allocation.

Please note that the words and expressions used in this Terminal Capacity Allocation Request Form shall have the same meanings to them as assigned in the Terminal Rules, unless otherwise defined herein.

1. Applicant information

*) Mandatory field

Company *	Business ID *
Address *	Zip Code and Post office *
Contact person *	Title
Email address *	Phone number *

2. Storage Service capacity allocation request for the Service Year 2027

The Applicants are invited to request capacity to store LNG in the Terminal's tank for the period until the end of the Service Year. The storage capacity is allocated in "Slots", where a Slot equals to 650 MWh of LNG. Please note that the Applicant may be allocated a maximum of one hundred (100) Slots of Regasification Services for each one (1) allocated Slot of the Storage Service, with the required number of Slots rounded up to be an integer number.

Please indicate in the "Requested Slots" column a number of Slots that the Applicant wishes to reserve from the Terminal. In the "Required Slots" column, the Applicant may indicate a minimum number of Slots that the Applicant requires in order to be able to commit to a reservation. Please note that if no Required Slots are indicated, it is assumed that the Requested Slots are also the Required Slots. Please also note that the number of Required Slots may not be less than thirty (30) Slots.

Storage Service capacity for Service Year 2027

1 Slot = 650 MWh of LNG, the number of Required Slots may not be less than thirty (30) Slots

Requested Slots	Required Slots

3. Regasification Services allocation request for the Service Year 2027

The Applicants are invited to request capacity for the Terminal's regasification and injection services for A) the whole Service Year, or B) individual quarters of the Service Year. Capacity for individual months of the Service Year is sold in the monthly auctions as described in the Terminal Rules. The regasification and injection services capacity is allocated in "Slots", where a Slot equals to one (1) MWh/Gas Day for the requested period. Please note that the Applicant may be allocated a maximum of one hundred (100) Slots of Regasification Services for each one (1) allocated Slot of the Storage Service, with the required number of Slots rounded up to be an integer number. The minimum number of Slots to be requested is two hundred and fifty (250).

Please indicate in the "Requested Slots" column a number of Slots that the Applicant wishes to reserve from the Terminal. In the "Required Slots" column, the Applicant may indicate a minimum number of Slots that the Applicant requires in order to be able to commit to a reservation. Please note that if no Required Slots are indicated, it is assumed that the Requested Slots are also the Required Slots.

A) Yearly Regasification Services capacity

1 Slot = 1 MWh/Gas Day for the complete Service Year 2027

	Requested Slots	Required Slots
Service Year 2027		

B) Quarterly Regasification Services capacity

1 Slot = 1 MWh/Gas Day for the period of individual quarters within the Service Year 2027

	Requested Slots	Required Slots
Q1/2027		
Q2/2027		
Q3/2027		
Q4/2027		

4. Allocation request for extended term (optional)

The Applicants may also apply capacities for the Storage Service and the Regasification Services for the upcoming Service Years 2028 – 2030. Please note that the capacities for the Service Years 2028 – 2030 will be allocated if and to the extent the Applicant receives allocation for Storage Service and Regasification Services for the complete Service Year 2027.

For avoidance of doubt, the received allocations for the Service Years 2028 – 2030 do not prevent the Applicant from participating in the Annual Capacity Allocation Procedure and from receiving additional allocations for the relevant Service Years.

	Yes
For the Service Year 2028	☐
For the Service Year 2029	☐
For the Service Year 2030	☐

5. Allocation request for truck loading capacity

The Applicants are invited to request fixed truck loading capacity for individual months of the Service Year 2027. Please indicate in the column "Requested number of loadings (pcs)" the number of truck loading slots that the Applicant wishes to reserve from the terminal for each month.

	Requested number of loadings (pcs)
January 2027	
February 2027	
March 2027	
April 2027	
May 2027	
June 2027	
July 2027	
August 2027	
September 2027	
October 2027	
November 2027	
December 2027	

6. Signatures

By signing and submitting this Terminal Capacity Allocation Request Form, the Applicant confirms the full and unconditional acceptance of all the conditions contained in the Terminal Rules and commits to enter into the Terminal Services Contract in accordance with the Allocation in case it is granted to the Applicant.
